

**DESCRIPTION**

**MODEL PGK GAUGE KIT**  
 The Model PGK is a pre-assembled kit including an isolation ball valve and pressure gauge which can be installed on the inlet or outlet side port of any basic OCV valve. This kit is shipped separately to avoid shipping damage and requires in-field installation.

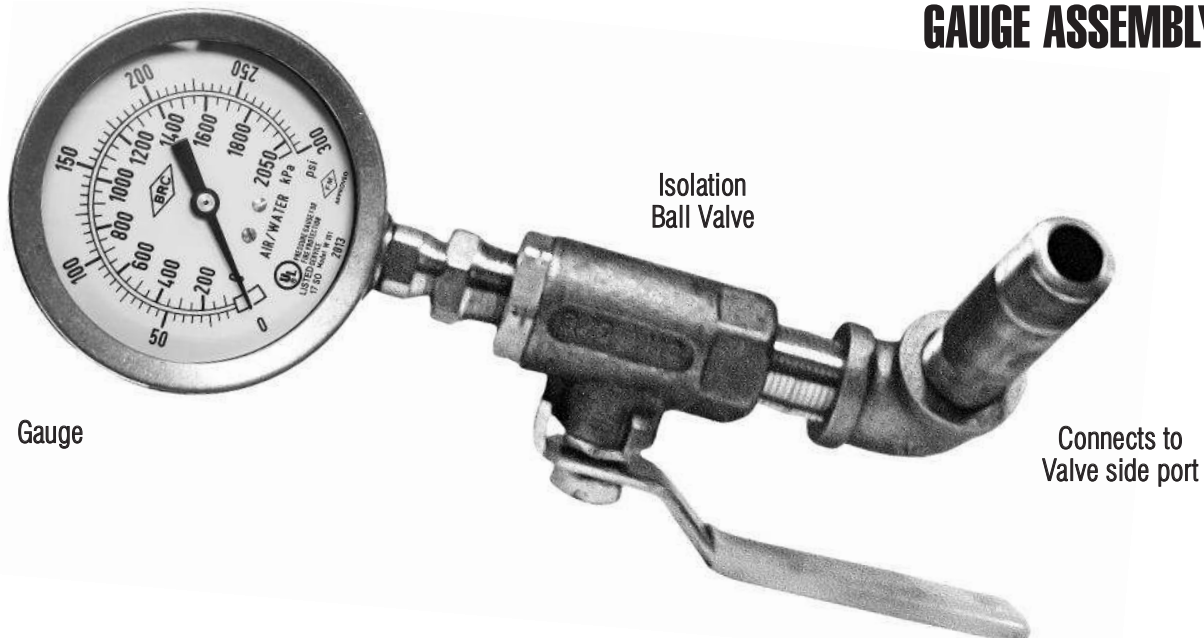

▲ PGK shown on a 116FC Valve  
 Valve sold separately.

**MATERIALS**

PRESSURE GAUGE	PART NUMBER	BALL VALVE	FITTINGS	USED ON VALVE SIZES
0-300 psi, 0-20 bar Stn Stl 2 1/2" Liquid Filled	200732**	3/8" Stn Stl	Stn Stl	1 1/4" - 8" *
0-300 psi, 0-20 bar Stn Stl 2 1/2" Liquid Filled	200811**	3/8" Bronze	Brass/Stainless	1 1/4" - 8" *
0-300 psi, 0-2050 kPa Brass 3 1/2" UL/FM	200011	3/8" Bronze	Brass/Stainless	1 1/4" - 8" *

\*Includes 1/2" X 3/8" bushing. The PGK may be adapted for larger valves using larger bushings. Additional charges may apply.  
 \*\*These gauge kits fall under OCV's NSF 372 low-lead listing.
