

Page 1 of 3 Certificate No: LR2238161TA-02 Issue Date: 14/07/2022 Expiry Date: 15/03/2027

Type Approval Certificate

This is to certify that the undernoted product(s) has/have been tested with satisfactory results in accordance with the relevant requirements of the Lloyd's Register Type Approval System.

Manufacturer	Aquestia
Address	7400 E. 42nd Place, Tulsa, OK, 74145, United States
Place of Production	Aquestia
	Kibbutz Dorot, Mobile Post Hof Ashkelon, 7917500, Israel
Place of Production	Aquestia
	7400 E. 42nd Place, Tulsa, OK, 74145, United States
Туре	Valves - General
Description	Hydraulically operated control valves
Trade Name	Series 300-Models 30, 31, 32, 30U, 30UC, 30AU & 30A Series 100-Models 44, 47, 68,77,87
Application	Industrial, marine and offshore fire protection systems, in deluge and foam systems, pressure control deluge systems, remote operated monitors, pressure control and sustaining systems, sprinkler systems and pressure

Type Approval Certificate

reducing hydrants

Specified Standard	Lloyd's Register Rules and Regulations for the Classification of Ships, Jul2021, Pt.5, Ch.12 & 13 ASME B16.34 – 2020 ASME B16.42- 2016 ASME B16.5 2020 ASME B16.24-2016 ASME B16.1-2020 BS EN1982:2008 UL 260 :2008 ISO 6182-5 2006
Ratings	refer to Appendix 1
Other Conditions	 1.Model 68 (size 2,4 & 6inches) have passed fire exposure test in accordance with ISO 6182-5 2006. 2.This Type Approval does not cover control aspects. 3.The pressure/temperature ratings in the certificate are as per previous approval. However if a valve fully complies with material, dimensions and quality control of a standard, eg: ASME B16.34, 16.42 etc. then the higher pressure/temperature rating given in the standards could be considered. 4.Gray Cast Iron valves are not to be used where subjected to pressure shock, excessive strains or vibrations. 5. Gray Cast Iron valves are not to be used for the following locations and or applications as per below: -Ship-side -Boiler blow-down systems and in other piping systems subject to shock or vibration -Valves fitted on collision bulkhead -Bilge lines -Flammable oil systems where design pressure exceeds 0.7Mpa or the

Type Approval Certificate

design operating temperature is greater than 60 deg Celcius -Valves fitted to tanks containing flammable oil under static pressure -Valve chests and fittings for starting air systems -Manifolds and their valves on tankers that connect to cargo-handling hoses

This certificate is not valid for equipment, the design, ratings or operating parameters of which have been varied from the specimen tested. The manufacturer should notify Lloyd's Register Canada Limited of any modification or changes to the equipment in order to obtain a valid Certificate.

Previous Version: 16/20088(E1)

The Design Appraisal Document LR2238161TA-02 and its supplementary Type Approval Terms and Conditions form part of this Certificate.
