Directing the Flow

Advanced hydraulic solutions for optimal management of liquid conveyance systems.

Aquestia is a world leader in providing optimal solutions for surge protection, water loss reduction and pressure management, by integrating uniquely developed products with innovatively designed software.

Bringing together three strong brands - A.R.I., Dorot and OCV - we combine decades of experience, a wealth of knowledge and expertise, and a wide range of solutions and services. We are where liquid flows - Waterworks & Wastewater Systems, Irrigation, Fire Protection, Aviation Fueling, Oil & Gas, Mining, Ballast Water & Desalination, and Commercial Plumbing.

Aquestia - high-quality, reliable products and committed service - for your peace of mind.

Waterworks

Aquestia provides one of the largest ranges of standard and custom-made water management products and solutions available today, perfectly suited to the dynamic nature of water networks.

With vast knowledge and experience in both air and water management for pipelines, we give you the peace of mind that comes with an end-to-end solution - premium hydraulic control valves that offer unmatched performance, unique low-flow stability and superb reliability, while also meeting the most stringent global standards for drinking water.
